

Flyers

The arrival of weekly flyers can be a welcome tool for planning grocery shopping or finding the best deals for a hobby or reno project. For others, flyer deliveries are an unnecessary or an unwanted service.

Reduce and Reuse Your Flyers

- Consider switching to the online versions of flyers to reduce paper and packaging waste.
- Alternatively reuse your flyers, they are great as recycle bin liners or for messy crafts etc.
- Please remember that any plastic bag your flyers come in must go in your blue box and not the grey box.

Want to Opt-Out?

You are able to Opt-Out by contacting your local distributor directly to be removed from the distribution list. The contact information should be identified within the flyer pack.

- For general flyer delivery enquiries contact:
 - flyerservice@brunswicknews.com or phone 1-800-332-3329
- To be added/removed from the local distribution list, contact:
 - king.lisa@brunswicknews.com - Fredericton Region Distribution Supervisor

You can also post a sign in your window or on your mailbox to serve as a friendly reminder to the delivery contractors. For your convenience, laminated “NO FLYER” window signs are available for pick-up at the Village Office.
