Village of New Maryland

Keeping Residents Informed

Here are a few highlights from the last CIC meeting and updates:

New Maryland Heritage Association (NMHA)

Representatives from the New Maryland Heritage Association shared an informative slideshow outlining the purpose and goals of the New Maryland Heritage Place. It was exciting to see the progress made through the renovations already completed, as well as the plans for future projects. The committee has done some incredible work, and we look forward to seeing what's next!

Village Branding Project

Representatives from The Ginger Agency continue to work with Council, providing valuable insight and creative options for the Village's brand positioning. This includes concepts for our verbal and visual identity, along with potential taglines. Council expects to make a decision in the near future so the project can move forward. Once the branding project is complete, our next step will be to update and rebuild the Village website to better reflect our community and its identity. Stay tuned for more updates!

Proposed 2027 General Government and Utility Budgets

The proposed 2027 General Government and Utility Budgets will be presented at the November 18th Council meeting.
Through careful consideration, thoughtful planning, and responsible fiscal management, we're pleased to share that the proposed budget includes a reduction in the Village's tax rate — welcome news for property owners!

346 New Maryland Highway – Zoning Agreement Amendment

Council is expected to consider the application to amend the zoning agreement for this property at the upcoming formal Council meeting on November 18th. The property owner has requested the amendment to allow for a gas station/convenience store and additional commercial space.
The meeting agenda will be posted on Monday and will include a motion to commence the required readings. This is the formal process Council must follow to consider the application and ultimately make a decision.
For clarity, the inclusion of this motion on the agenda does not indicate or predetermine Council's decision. It will, however, provide the necessary opportunity for Council members to vote either in favour of or against the application.

We encourage all residents to attend our meetings to stay informed and receive accurate, up-to-date information about municipal projects and initiatives.
